Ultra-Compact, High Definition Suite of Cameras

From scientific to industrial and broadcast applications, no one offers more versatility in high performance, ultra-compact HD cameras. They are backed by years of Toshiba's technical expertise in chip technology, delivering the ultimate in video output quality for all your imaging needs.

Our 3CCD, prism block remote head IK-HD1 series is the world's smallest and offers a variety of controller configurations. And our convenient CMOS single body cameras give you the advantages of digital output with a choice of frame rates and scanning system options.

For more information on our unparalleled HD video cameras, call 877-595-4425 or visit www.cameras.toshiba.com today. Toshiba. Where HD life is suite.

IK-HD1 Series

- 3CCD (1/3") sensor
- 1.6", 2.3 oz. remote head
- 1080i output
- 1920 x 1080 output pixels
- Records video at 30 fps
- Digital HD-SDI or DVI

IK-HR1D

- CMOS (1/3") 2.1 Mpixel sensor
- 1.75" x 1.75" x 3.0625", 4.3 oz. body
- 1080i / 1080p output
- 1920 x 1080 output pixels
- Records video at 30 fps (1080i), 60 fps (1080p)

IK-HR1S

- CMOS (1/3") 2.1 Mpixel sensor
- 1.75" x 1.75" x 3.0625", 4.3 oz. body
- 1080i / 720p switchable output
- 1920 x 1080 output pixels
- Records video at 30 fps (1080i), 60 fps (720p)

IK-HR1H

- CMOS (1/3") sensor
- 1.18" x 1.37" x 1.41", 1.76 oz. remote head
- 1080i / 720p switchable output
- 1920 x 1080 output pixels
- Records video at 30 fps (1080i), 60 fps (720p)
