RE: Introduction AC-MW4012 medical rated 12VDC power adapter

Toshiba is pleased to announce the introduction of a new 12VDC power adapter, AC-MW4012, which complies with ISO60601-1 3rd edition requirements for use in a medical environment. The new AC-MW4012 is compatible with all Toshiba video camera models and provides a convenient solution when using video cameras in various medical applications.

The new power adapter features an 8' (2.4m) robust medical grade "green dot" cord set and auto sensing 100 – 240VAC input, 12.0VDC, 3.3A output.

When using a video camera within any medical setting consider upgrading to the performance, safety and reliability provided through the AC-MW4012 power adapter.

Contact Toshiba sales or your local Toshiba camera supplier to order.
